

When We Loved

I remember days so clearly
Flowing by like waterfalls
I remember how much we loved.
How it felt each day to hold you
Wonder if I ever told you,
What it meant to know that we loved.
Every touch a new sensation,
Every kiss a revelation,
How I loved to know that we loved,
When we loved.

When we loved, every kiss was like the first.
When we loved and I thought my heart would burst.
When we loved my desire was like a thirst.
I'd kiss your eyes,
And drink your sighs.

Now that love is just a memory,
Funny how much more I can see,
I can see how much we did love,
When we loved.

When we loved every night was Christmas Eve,
When we loved I was starting to believe,
To believe dreams they really might come true,
I woke to find that I'd lost you.

Now that love is just a memory,
Funny how much more I can see,
I can see how much we did love,
When we loved. When we Loved.
